Section A: Target Household Identification & Informed Consent

Target Household Identification

A1.	Enumerator: Are you able to locate the Target Household?	1 = yes >> Informed Consent 2 = no	<input type="checkbox"/>
A2.	Enumerator: If no, why not?	1 = Target Household has moved permanently 2 = Target Household has moved temporarily/seasonally 3 = all members of Target Household have traveled 4 = all members of Target Household are dead 5 = cannot find anyone in this locality who fits the Target Household description 9 = other (specify): _____	<input type="checkbox"/>

ENUMERATOR: ask to interview the head of the target household and any other members of the household who are involved with agriculture in the household. If different household members are responsible for different parts of the household's agricultural production, ask that all of these different members be called to participate in the survey.

Informed Consent

ENUMERATOR: INTRODUCE YOURSELF AND THE PURPOSE OF THE SURVEY TO THE RESPONDENT(S). <i>BE SURE TO COVER ALL POINTS LISTED BELOW.</i>			
<ul style="list-style-type: none"> I am (<i>name</i>), and I am working for Statistics Sierra Leone. The government has asked us to collect important information about agricultural production all across Sierra Leone. The survey will include detailed questions about your family, how much land you farm, what crops you grow, how much you have produced in the past 12 months, and any problems you have had on your farm. The interview will last between 2 and 3 hours. All answers will be kept anonymous. Your participation will have <u>no direct effect</u> on the amount of assistance given to you, to your household, or to your village. Participation is voluntary and we will not force you to answer any question. If you wish to end the interview at any time, you may do so. If you have any questions, or if any problems arise, please contact your Local Authorities. 			
A3.	Will you agree to allow me to ask these questions, and participate in the survey?	1 = yes >> A5 2 = no	<input type="checkbox"/>
ENUMERATOR: CONTINUE WITH THE INTERVIEW ONLY IF THE RESPONDENT(S) GIVES THEIR CONSENT. OTHERWISE, INDICATE WHY THE RESPONDENT(S) REFUSED THE INTERVIEW BELOW AND CONTINUE TO THE NEXT HOUSEHOLD.			
A4.	Enumerator: If refused, what is the main reason?	1 = no time / too busy 2 = privacy concerns 3 = other (specify): (_____)	<input type="checkbox"/>
A5.	Enumerator: record Start Time of Interview (24 Hour Clock)		<input type="text"/> : <input type="text"/>

Section D: Farm Characteristics and Ownership

D1. FARM PICTURE (FOR DETAILED GUIDANCE PLEASE REFER TO THE MANUAL)

Use the laminated sheet, marker and have a tissue/napkin handy. Make the respondent(s) aware that they will be trying a new and interesting exercise. After demonstrating how they can easily delete anything drawn using the tissue, hand them the marker and ask them to draw all of their farms. All we need is a very basic representation of all the farms the household has cultivated in the past 12 months and ideally, but not essentially, their relative sizes. Note that the farm picture is not a map and should not represent farm locations and routes to them.

Once the interviewee has produced a representation of all the hh farms (double check that the farm picture is complete), you should:

- Enter into these circles the names (and preferably some pictures) of the main crops cultivated on each farm (be sure to include its core crops if grown).
- Erase farms that do not contain one of the 8 core crops (rice, cassava, sweet potato, groundnut, maize, cacao, coffee, oil palm)
- Clearly number the farms that contain at least one of the 8 core crops. As you give each farm a number (entering it into the circle), speak out the farm number, and make sure that the interviewee is following along.
- Begin the farm data collection, but keep the map because you will use it for the rest of the survey

D2. Farm Characteristics: for each numbered farm (which should contain at least one of the 8 core crops) record the details of the farm below.

ENUMERATOR: you might find it is faster to **go down the columns of the table**. For each question cycle through all farms.

Farm ID	D2a	D2b	D2c	D2d		D2e	D2f	D2g
	Ecology (Use ECOLOGY codes)	Main Crops Cultivated in Past 12 Months Enumerator: specify up to 3 using CROP codes. Use "88" for multiple vegetables. SECTION F: Rice

F1	Did this household cultivate any rice in the past 12 months? Enumerator: Check against crop inventory	1 = yes 2 = no >> G1	_ _
----	---	--------------------------------	-----

F2 (Production -- Planting): **By Farm, Month when Crop Cycle Began**

ENUMERATOR: List all farms where rice was cultivated in the past 12 months. Cross check against the farm inventory to make sure that **all** rice farms are included.

Include any crop cycles begun during the past 12 months; if there was more than one crop cycle for any farm, record each crop cycle separately.

Fill by row: answer questions F2a-F2m for each farm and then move to next farm.
